

**Federal State Budgetary Scientific Institution
“Russian Research Institute of Floriculture and Subtropical Crops”**

V Russian scientific-practical conference with international participation

**"ORNAMENTAL HORTICULTURE: STATE, PROBLEMS,
PERSPECTIVES"**

First informational letter

Dear colleagues! Russian Research Institute of Floriculture and Subtropical Crops invite you to participate in the V Russian scientific-practical conference with international participation "Ornamental horticulture: state, problems, perspectives", dedicated to the 50th anniversary of the transformation of Sochi Experimental Station of Subtropical and Southern Fruit Crops into the Research Institute of Mountain Horticulture and Floriculture.

The conference will be held on October 10-12, 2017.

Arrival of participants will be on October 9, 2017.

Address: c. Sochi, Yana Fabritsiusa str. 2/28

Please send your applications for participation and papers **before August 15, 2017** to an e-mail address: nauka-org@vniisubtrop.ru marked as “Ornamental horticulture conference”.

The authors are responsible for authenticity and content of the represented material. The Organizing committee reserves the right of scientific text editing and backspace correction, as well as refusing the materials which do not correspond to the topic of the conference or are of a low quality.

Materials should be submitted electronically, with the extension .doc or .docx. Files should be named by the surname of the first author and the first two words of the paper, for example, Иванов Интродукция тюльпанов.doc, or Ivanov Introduction of Tulips.doc. Information about the authors should be submitted in a separate file.

The materials of the conference selected by the Editorial Board will be published in the collected scientific papers “Subtropical and ornamental horticulture” of the FSBSI “Russian Research Institute of Floriculture and Subtropical Crops”.

Research directions of the conference:

1. Introduction of ornamental crops, including annual and perennial herbaceous, and arboreal and shrubby plants.
2. Collections of ornamental crops in scientific and educational institutions.
3. Breeding, genetics and biotechnology of ornamental crops.
4. Problems of nursery breeding and cultivation of ornamental crops.
5. Physiological and biochemical research and adaptive potential of ornamental crops.
6. Protection of ornamental crops against pests and diseases, and specifically in urban conditions and open-ground conditions.
7. Modern trends in landscape design and phytodesign.
8. Environment-improving phytotechnologies.
9. Problems of training specialists in floriculture, ornamental horticulture, landscape gardening and floristics.

Requirements for materials registration:

The papers, which correspond to thematic directions of the conference and not published earlier, as well as contain *new theoretical and practical scientific data at least for 2 or 3 years*, will be accepted for publication. The papers, which are not executed as required will not be considered by the Organizing committee of the conference.

Structure of the paper: introduction – aim of research – methods – results – conclusion - references:

Print is Times New Roman, 12 typesize, without word divisions, interline interval is single, the text is justified. Fields: left – 3 cm, others – 2 cm. Maximum volume of paper – 5 pages.

Pictures and *diagrams* should be executed neatly, intelligibly, in black and white. Photos should be fine, of a high quality and represented by separate files in .jpg or .pdf formats. The decision to publish photos will be taken by the Editorial board. Pictures should be placed in the text after their reference, the signature is obligatory.

Tables should be placed after reference on them in the text. Each table should have a serial number and a title which reflect the table content.

Latin names of the plants are usually highlighted in normal italics and written according to the modern nomenclature (see Index Kewensis). Pages are not numbered.

The bibliographic should be in accordance with the State Standard 7.1 - 2003 “Bibliographic record. Bibliographic description. General requirements and rules of drafting”, State Standard R 7.0.5 - 2008 (bibliographic description of short links).
